Annals of Economic and Social Measurement, 4/4, 1975

CONTENTS

Volume 4—Year 1975

Number 1—Winter 1975

Special Issue on Consumer Demand

Introduction	Lester D. Taylor	1
The Theory of Household Behavior: Some Foundations	Kelvin Lancaster	5
Budgeting, Decentralization, and Aggregation	Charles Blackorby, Daniel Primont, and R. Robert Russell	23
Comment	Louis Phlips	45
The Structure of Consumer Preferences	Dale W. Jorgenson and Lawrence J. Lau	49
Estimation of Dynamic Gorman Polar Form Utility Functions	Richard Boyce	103
Mixed Estimation of a Complete System of Consumer Demand Equations	John D. Paulus	117
Measurement of the Cost of Living Including the Public Sector	Martin David	133
Place to Place Rent Comparisons	Robert Gillingham	153
Comment	William E. Alexander	175
The Intertemporal Cost of Living Index	Robert A. Pollack	179
Comment	Steven Marc Goldman	197
Measurement of the Purchasing Power of Incomes: with Linear Expansion Data—An Abstract	Sidney N. Afriat	199
Computer Center Notes		201
Announcements		205

Number 2—Spring 1975

Special Issue on Stochastic Control Applications

Introduction to Stochastic Control Applications	Gregory C. Chow	207

Macroeconomics

Discretion in the Choice of Macroeconomic Policies	Kenneth Garbade	215
A Comparison of Three Control Algorithms as Applied to the Monetarist-Fiscalist Debate	Andrew B. Abel	239
Optimal Coordination of Aggregate Stabilization Policy and Price Controls: Some Simulation Results	Surender K. Gupta, Laurence H. Mayer, Fredric Q. Raines, and Tzyh-Jong Tarn	253

Microeconomics

Stochastic Control of Environmental Externalities	Gordon C. Rausser and Richard Howitt	271
Random Walk Models of Advertising: Their Diffusion Approximation and Hypothesis Testing	Charles S. Tapiero	293
Multistage Pricing Under Uncertain Demand	Chee-Yee Chong and David C. Cheng	311
A Model of a Project Activity	Edward A. Stohr	325
Survey of Nash and Stackelberg Equilibrium Strategies in Dynamic Games	J. B. Cruz, Jr.	339

Theory and Applications

Survey of Decentralized Control Methods	Michael Athans	345

Computer Notes

The Table Producing Language of the Bureau of Labor Statistics	Rudolph C. Mendelson	357

Number 3—Summer 1975

Qualitative Response Models	Takeshi Amemiya	363
A Comparison of Robust and Varying Parameter Estimates of a Macro-econometric Model	Thomas F. Cooley	373
A Note on Intersectoral Shifts and Aggregate Productivity Change	Jack Beebe	389
Recursive Estimation Algorithms for Economic Research	William Craig Riddell	397
A Microeconometric Model of the Health Care System in the United States	Donald E. Yett	407

Classification of Economic Indicators: An Alternative Approach	Ivy E. Broder and Gregory K. Schoepfle	435
Standard Description of Magnetic Tape Files	Harold King	449
Announcements		459
1963 87-Order Input–Output Tables Containing Disaggregation of the Energy Sectors	Kern O. Kymn	459
Computer Programs for Bayesian Statistical Analysis		460

Number 4—Fall 1975

Quantitative Economic Research in Latin America

Introduction	M. Ishaq Nadiri, Patricio Meller and Manuel Gollas	i
Econometric Modeling of National Income Determination in Latin America, with Special Reference to the Chilean Experience	J. R. Behrman	461
Notes on the Recent Monetary Policy in Brazil	Affonso Celso Pastore	489
Policy-Oriented Macroeconometric Models for Development and Planning	Jeffrey B. Nugent	509
The Use of Input–Output Analysis in an Econometric Model of the Mexican Economy	Rogelio Montemayor Seguy and Jesus A. Ramirez	531
Some "RAS" Experiments with the Mexican Input–Output Model	Pedro Uribe	553
A Quantitative Approach to Agricultural Policy Planning	Luz Maria Bassoco and Roger D. Norton	571
Production Functions for Industrial Establishments of Different Sizes: The Chilean Case	Patricio Meller	595

AUTHORS' INDEX

Volume 4—Year 1975

Abel, Andrew B. A Comparison of Three Control Algorithms as Applied to the Monetarist–Fiscalist Debate, 239.

Afriat, Sidney N. Measurement of the Purchasing Power of Incomes: with Linear Expansion Data—An Abstract, 199.

Alexander, William E. Comment, 175.

Amemiya, Takeshi. Qualitative Response Models, 363.

Athans, Michael. Survey of Decentralized Control Methods, 345.

Bassoco, Luz Maria and Norton, Roger D. A Quantitative Approach to Agricultural Policy Planning, 571.

Beebe, Jack. A Note on Intersectoral Shifts and Aggregate Productivity Change, 389.

Behrman, J. R. Econometric Modeling of National Income Determination in Latin America, with Special Reference to the Chilean Experience, 461.

Blackorby, Charles, Primont, Daniel and Russell, R. Robert. Budgeting, Decentralization, and Aggregation, 23.

Boyce, Richard. Estimation of Dynamic Gorman Polar Form Utility Functions, 103.

Broder, Ivy E. and Schoepfle, Gregory K. Classification of Economic Indicators: An Alternative Approach, 435.

Cheng, David C. See *under* Chong, Chee-Yee.

Chong, Chee-Yee and Cheng, David C. Multistage Pricing Under Uncertain Demand, 311.

Chow, Gregory C. Introduction to Stochastic Control Applications, 207.

Cooley, Thomas F. A Comparison of Robust and Varying Parameter Estimates of a Macroeconometric Model, 373.

Cruz, J. B. Jr. Survey of Nash and Stackelberg Equilibrium Strategies in Dynamic Games, 339.

David, Martin. Measurement of the Cost of Living Including the Public Sector, 133.

Garbade, Kenneth. Discretion in the Choice of Macroeconomic Policies, 215.

Gillingham, Robert. Place to Place Rent Comparisons, 153.

Goldman, Steven Marc. Comment, 197.

Gollas, Manuel. See *under* Nadiri, M. Ishaq.
